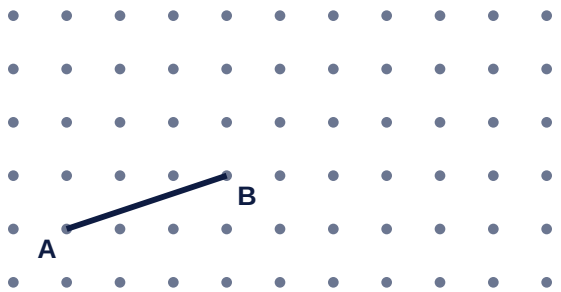
Name: _____ **Date:** _____

DIRECTIONS

This Independent Practice is for Lesson 4.16.03.
Use a ruler. Draw from dot to dot.
Parallel: use the same steps. Perpendicular: swap the numbers and flip one direction.
Mark right angles with a small square and parallel segments with arrows.

1 Parallel on dot paper

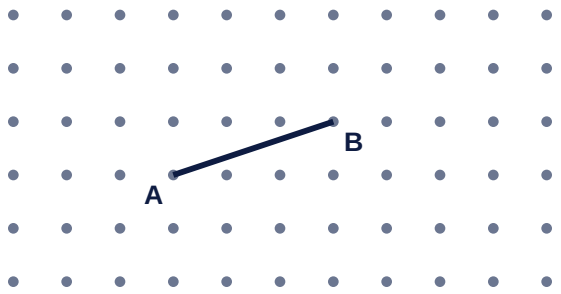
AB goes over 3, up 1. Draw a segment parallel to AB. Write its steps.



My steps: over _____ , up _____

2 Perpendicular on dot paper

Draw a segment perpendicular to AB that starts at A. Write its steps.

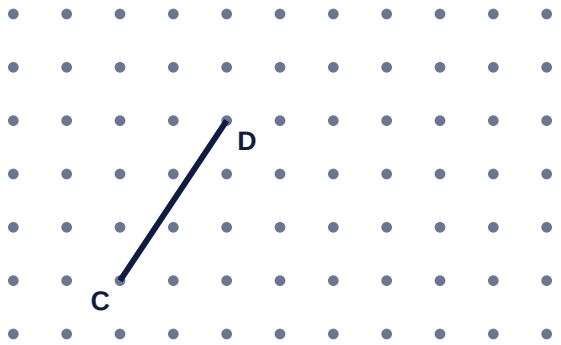


My steps: _____

© Optima Academy Online

3 Both kinds

CD goes over 2, up 3. Draw one segment parallel to CD and one perpendicular to CD at D.



Parallel steps: _____

Perpendicular steps: _____

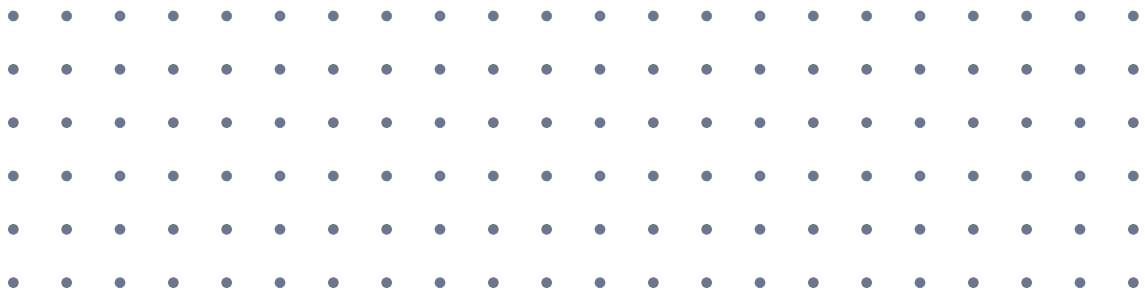
4 Steps chart

(a) over 4, up 1 → parallel: over 8, up _____ perpendicular: over 1, down _____

(b) over 1, up 2 → parallel: over 2, up _____ perpendicular: over 2, down _____

(c) over 5, up 0 → perpendicular: over _____, up _____

SAME STEPS, OR SWAP AND FLIP

5 Draw a rectangle


Draw a rectangle 5 dots long and 3 dots wide. Then try a tilted one: start with a side that goes over 3, up 1.
