Name: _____ **Date:** _____

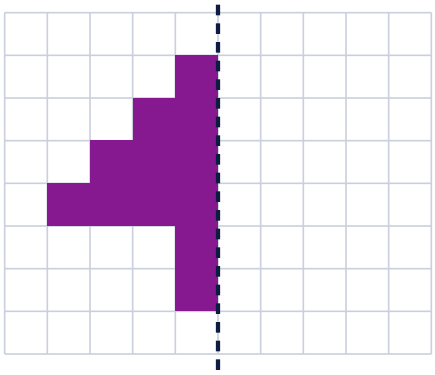
DIRECTIONS

This Independent Practice is for Lesson 4.16.06.
Shade squares to finish each design.
The dashed line is a line of symmetry. Each square needs a partner on the other side.
Partners are in the same row (or column), the same distance from the line.

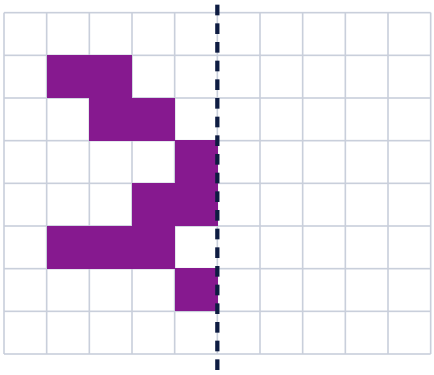
1 Complete the figure

Shade squares on the right side to finish each figure.

(a)



(b)



2 A line that goes across

Shade squares below the line so the pattern is symmetrical.

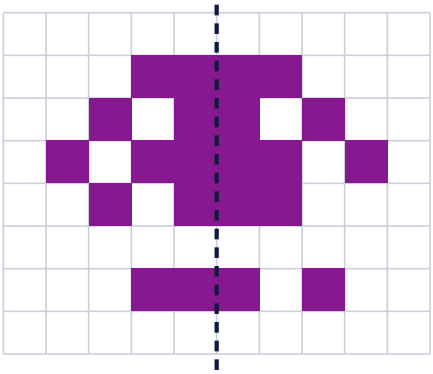
3 Find the mistakes

Kai finished this figure, but 2 squares are in the wrong place. Circle them and shade the right squares.



4 Check

How can you check that a figure is symmetrical? Explain in your own words.

FOLD IT, OR COUNT SQUARES FROM THE LINE

Answer: _____ _____ _____

5 Design your own

Design a symmetrical flag for the model town. Shade one side first, then its mirror.
