Name: _____ **Date:** _____

DIRECTIONS

This Independent Practice is for Lesson 4.13.01.
Show your work. Write your final answer on the line.
Add or subtract tenths the same way you add or subtract any other things: count them.
Line up the decimal points. Ones go with ones. Tenths go with tenths.

1 Read the tenths strips

Each strip is one whole cut into 10 equal parts. Each part is one tenth (0.1).
The orange parts and the red parts are added together. Write the addition and the total.

(a) _____ + _____ = _____

(b) _____ + _____ = _____

(c) _____ + _____ = _____

Example: 1 orange part + 2 red parts → 0.1 + 0.2 = 0.3

2 Add ones and tenths

Add the tenths, then the ones. Write your answer under the line.

(a)
$$\begin{array}{r} 1.3 \\ +\ 2.4 \\ \hline \\ \end{array}$$

(b)
$$\begin{array}{r} 3.1 \\ +\ 4.6 \\ \hline \\ \end{array}$$

(c)
$$\begin{array}{r} 5.2 \\ +\ 0.7 \\ \hline \\ \end{array}$$

3 Subtract tenths

Take away the tenths, then the ones. Write your answer under the line.

(a)

$$\begin{array}{r} 0.9 \\ -\ 0.6 \\ \hline \\ \end{array}$$

(b)

$$\begin{array}{r} 4.8 \\ -\ 2.3 \\ \hline \\ \end{array}$$

(c)

$$\begin{array}{r} 6.7 \\ -\ 0.5 \\ \hline \\ \end{array}$$

4 Find the mistake

Sam did two problems. Both answers are wrong.

(a) 0.5 + 0.3 = 0.08 (b) 2.6 – 1.4 = 12

Explain what Sam did wrong in each one. Then write the right answers.

THINK ABOUT A MEASURING CUP: DOES THE ANSWER MAKE SENSE?

(a) _____ **(b)** _____

5 Word problem — the punch bowl

Mia has 2.5 L of punch in a bowl. She adds 1.3 L of orange juice.

(a) How much punch is in the bowl now?

(b) The guests drink 2.6 L. How much punch is left?

ADD FIRST; THEN SUBTRACT FROM YOUR NEW TOTAL

(a) _____ L **(b)** _____ L
