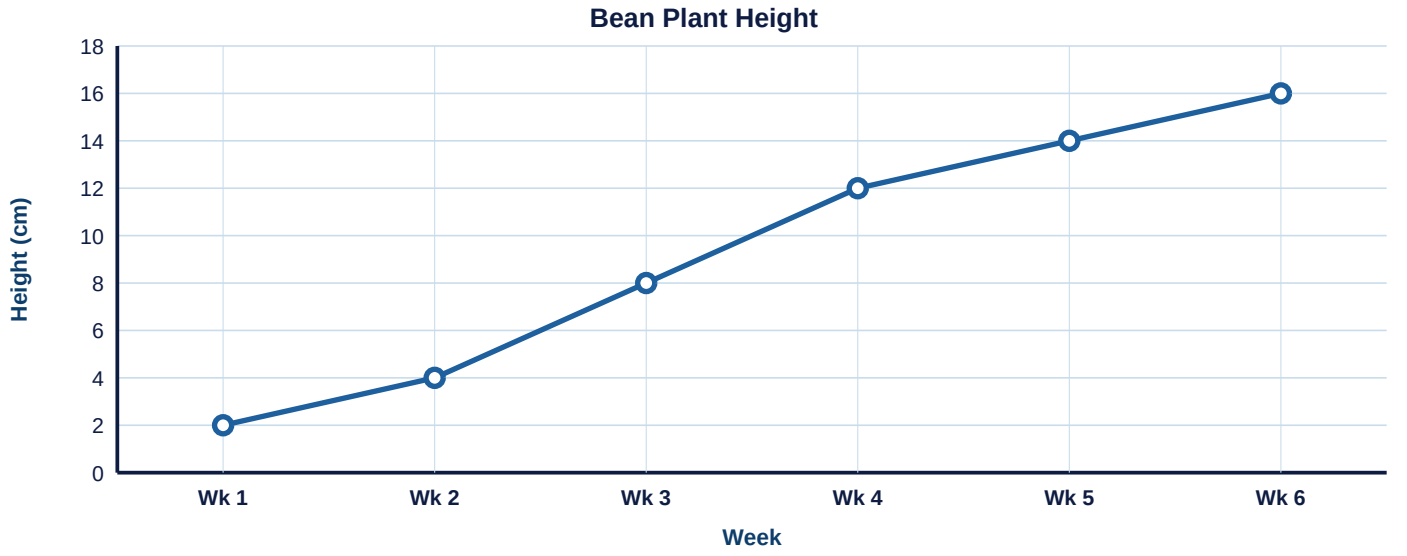
Name: _____ **Date:** _____

DIRECTIONS

This Independent Practice is for Lesson 4.09.05.
Use the line graph in each problem. Write your final answer on the line.
To read a point: go down to the label, then across to the scale.
A change is a difference. Subtract the two readings.

1 Our class bean plant

Ms. Ruiz's class measured a bean plant every week.



(a) Height in week 3: _____ cm **(b)** Height in week 6: _____ cm **(c)** First week it reached 12 cm: week _____

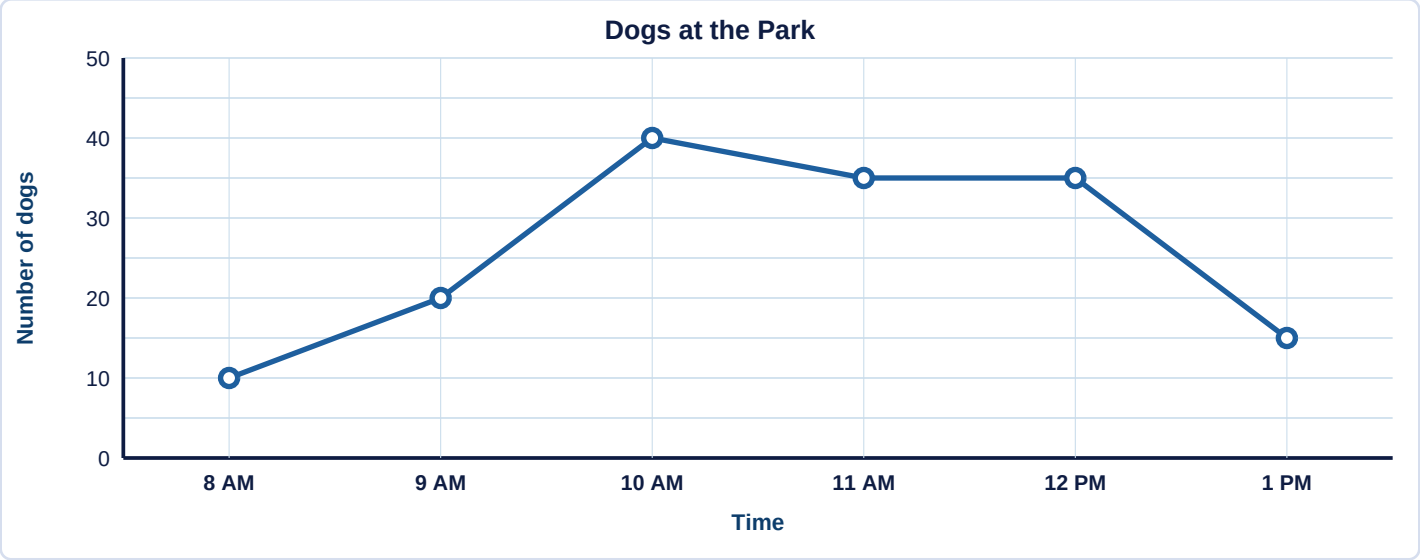
2 Dog park visitors

The park counted dogs every hour on Saturday.

(a) Between which two times did the number of dogs stay the same?

(b) When did the number of dogs go up the most? By how many?

(c) When did the number of dogs go down the most? By how many?



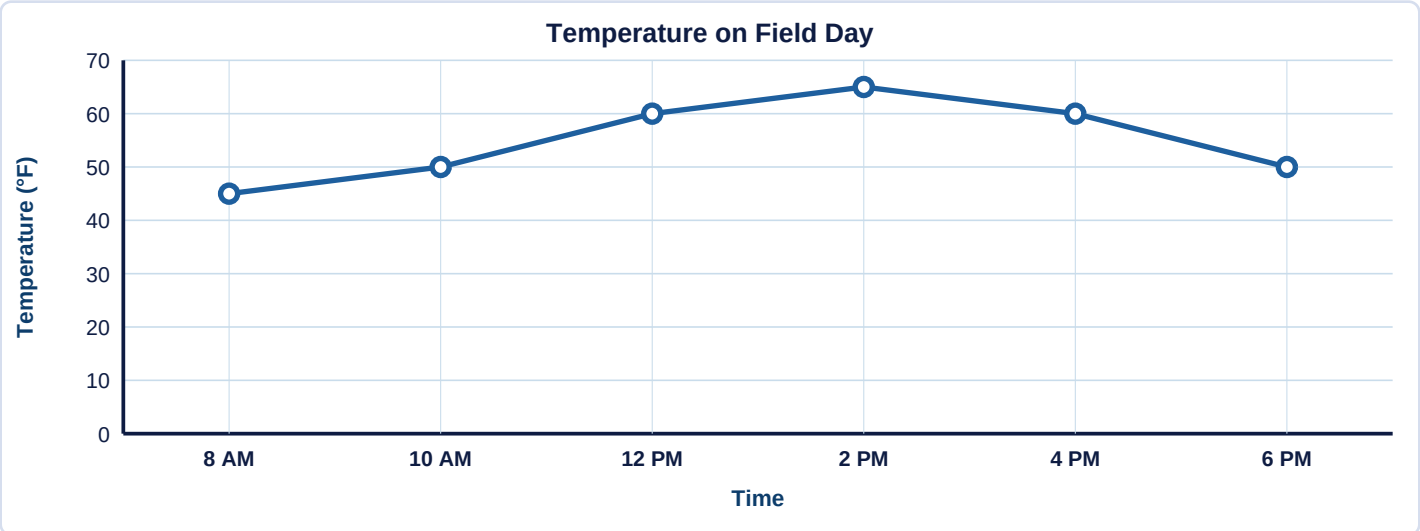
(a) _____ **(b)** _____ by _____ **(c)** _____ by _____

3 Reading between the lines

The scale counts by 10. Some points sit halfway between two lines.

(a) What was the highest temperature, and at what time?

(b) How many degrees warmer was it at 12 PM than at 8 AM?



(a) _____ °F at _____ **(b)** _____ degrees

4 Find the mistake

Look at the Field Day graph in Problem 3. Ava says the temperature at 12 PM was 6 degrees, because the point is on the 6th line. What did Ava forget? What is the right temperature?

THE SCALE COUNTS BY 10

Right temperature: _____ °F

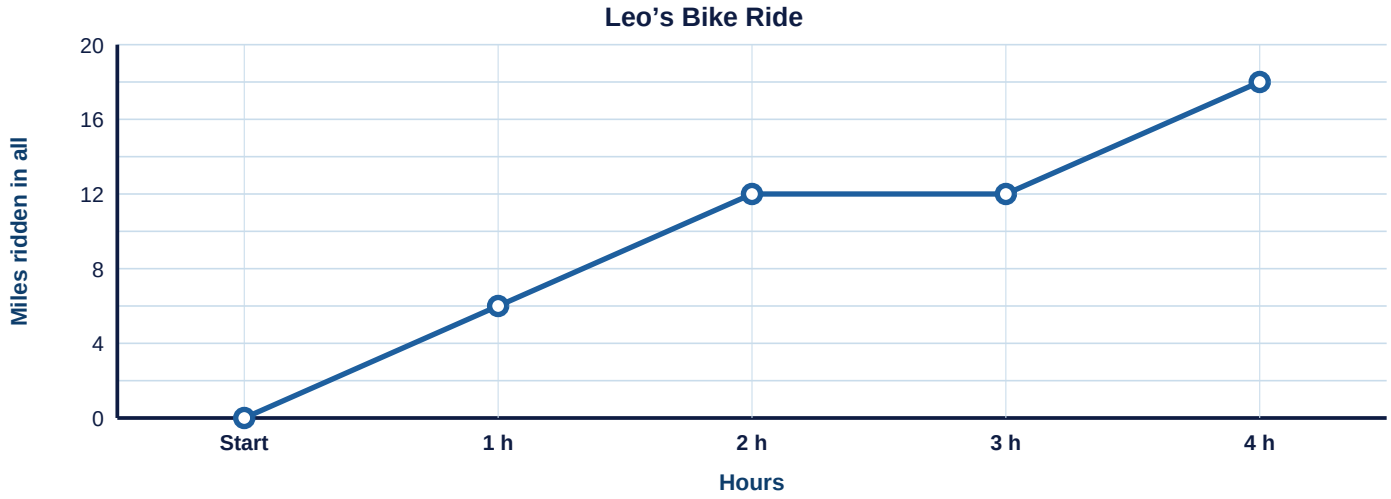
5 Word problem — Leo's bike ride

The graph shows how far Leo had ridden in all, hour by hour.

(a) During one hour the line is flat. Which hour? What was Leo doing?

(b) How many miles did Leo ride in all?

(c) How far did he ride during the last hour?



(a) _____ **(b)** _____ mi **(c)** _____ mi
