Name: _____ **Date:** _____

DIRECTIONS

This Independent Practice is for Lesson 4.09.06.
Pick a scale before you plot any points. Start at 0 and count by the same step.
Plot each point straight above its label. Join the points left to right.
Every graph needs a title and a label on each side.

1 Pick a scale

For each set of data, choose what the scale should count by and the number at the top.

(a) 3, 6, 9, 15 count by _____ top number _____

(b) 10, 30, 45, 20 count by _____ top number _____

(c) 100, 250, 400, 350 count by _____ top number _____

BIGGEST VALUE FIRST; THEN A STEP THAT LANDS EVERY POINT ON A LINE

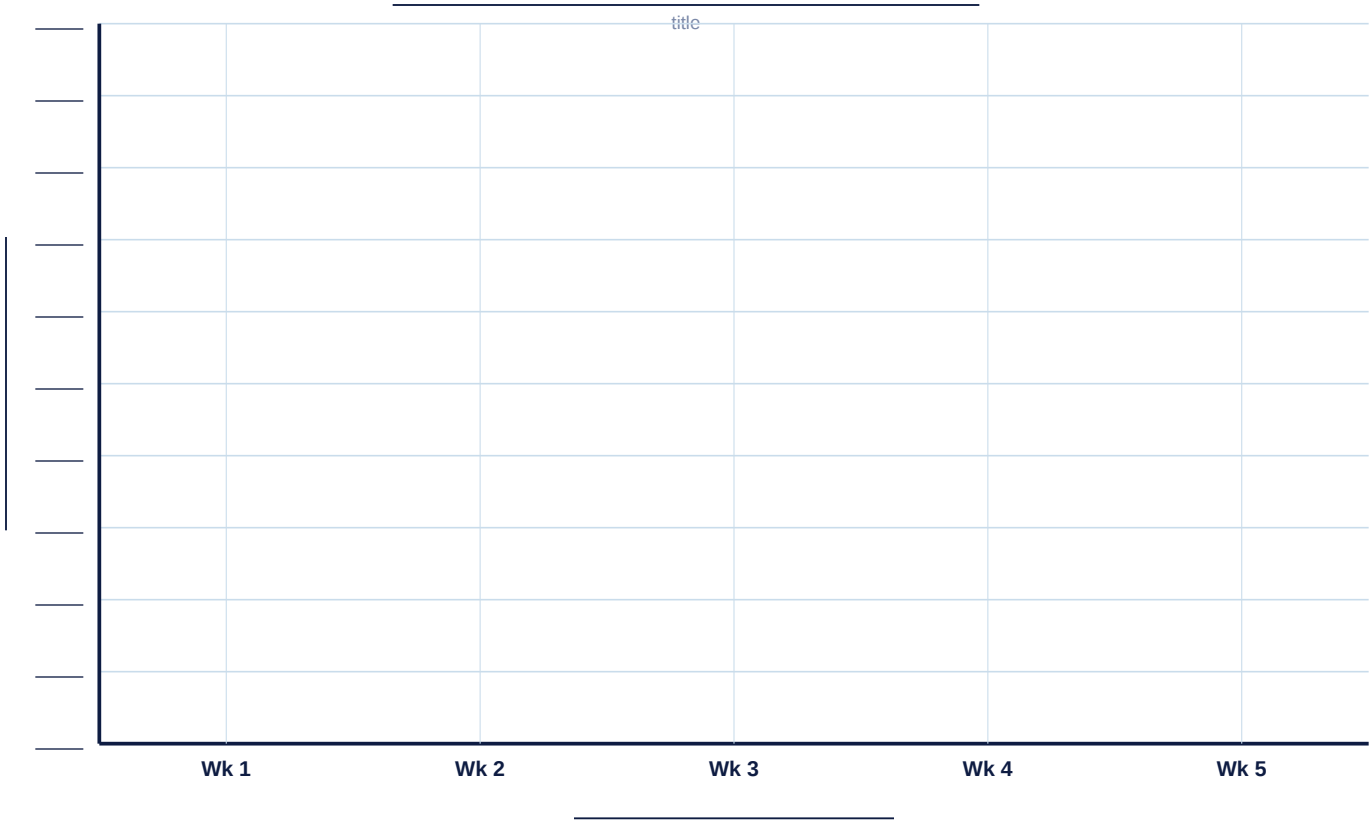
2 Draw it — Sam’s savings

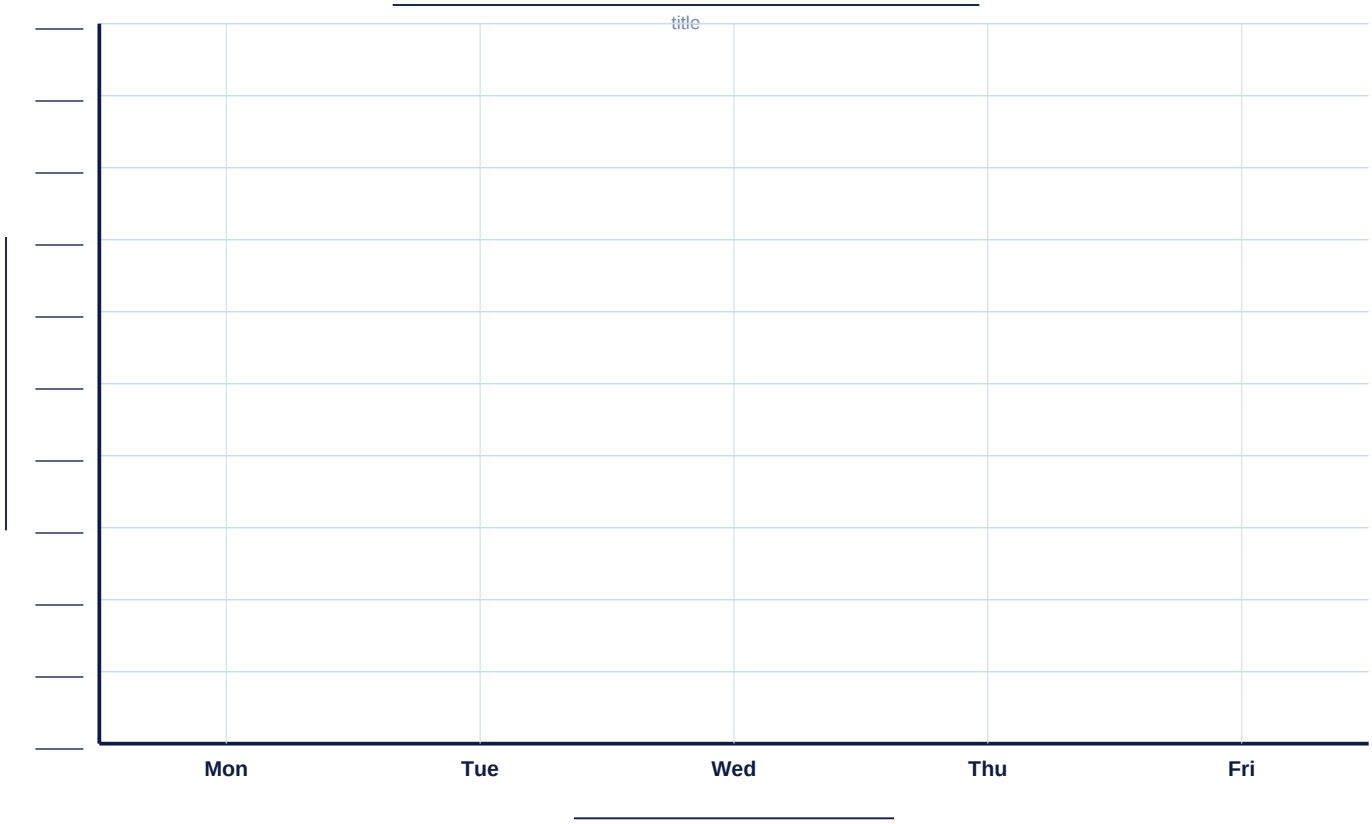
Sam saved money each week: Week 1 $4, Week 2 $8, Week 3 $10, Week 4 $14, Week 5 $18. Write the numbers on the scale, plot the points, join them, and add a title and labels.



My scale counts by _____

3 Draw it — bird feeder visits

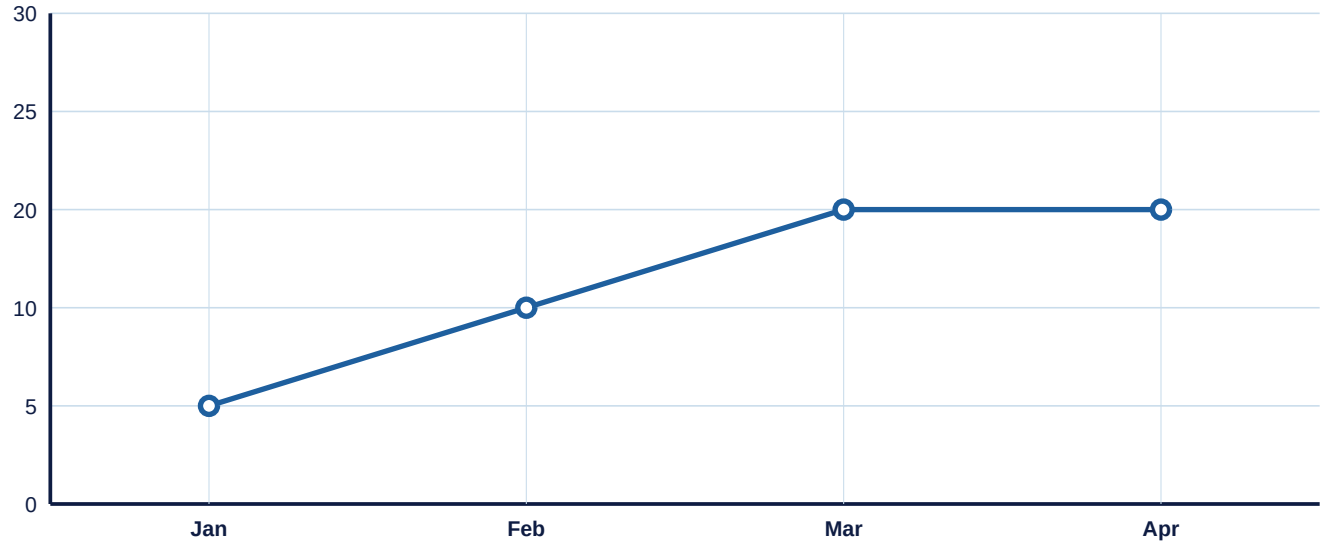
Birds that visited the feeder: Mon 15, Tue 25, Wed 40, Thu 30, Fri 45.
Write the numbers on the scale, plot, join, title and label.



My scale counts by _____

4 Find three mistakes

Jay graphed the number of books he read: Jan 5, Feb 10, Mar 15, Apr 20.
His graph has three mistakes. Find all three and explain how to fix each one.

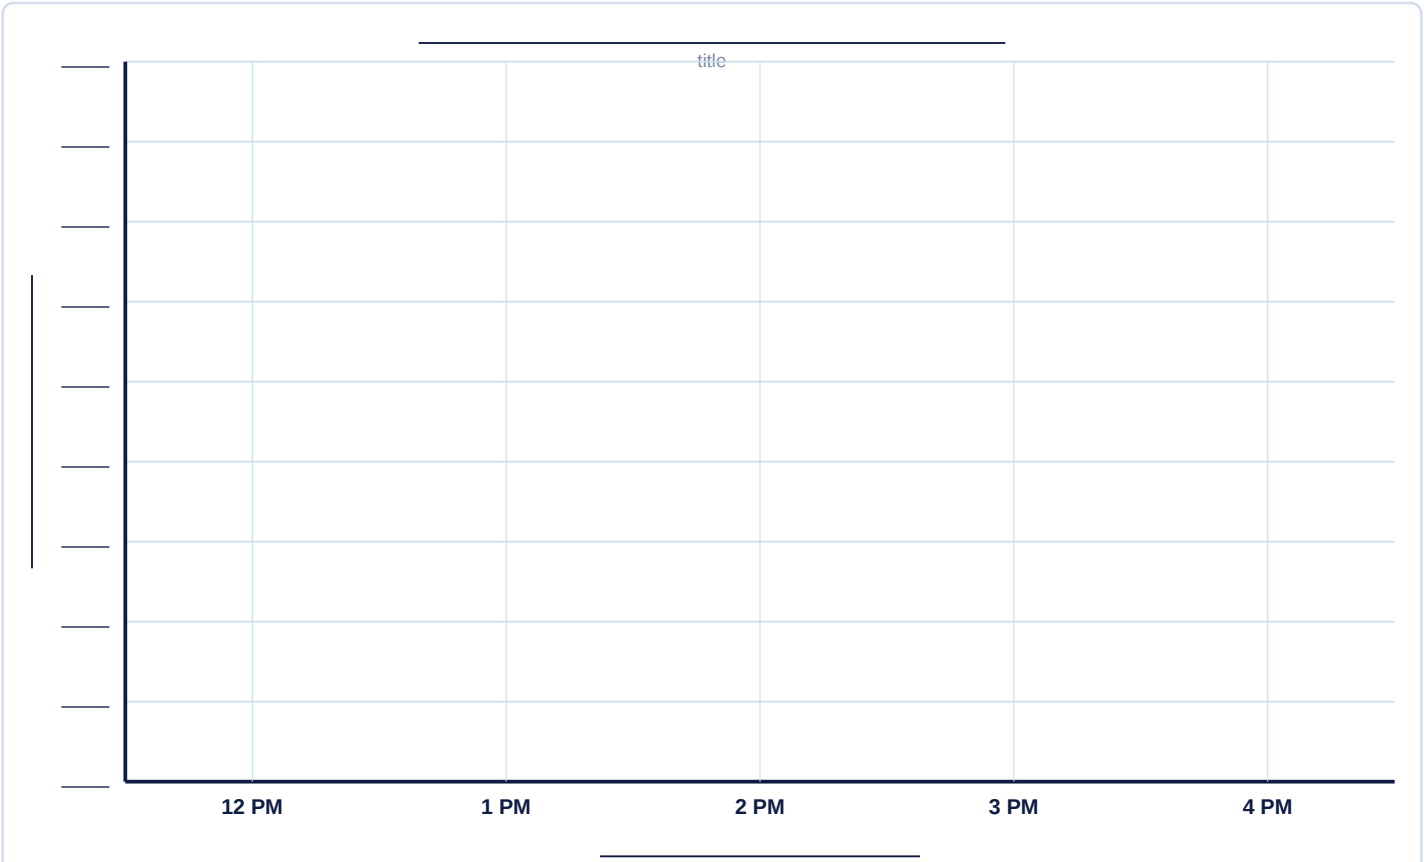


MISTAKE 1 · MISTAKE 2 · MISTAKE 3

5 Word problem — the ice cream truck

Cups of ice cream sold each hour: 12 PM 20, 1 PM 40, 2 PM 80, 3 PM 60, 4 PM 30.

(a) Draw the line graph. (b) Between which two hours did sales go up the most? By how many?



(b) _____ by _____ cups
