**Name:** _____ **Date:** _____

**DIRECTIONS**

This Independent Practice is for Lesson 4.10.07.
Show your work in the box. Write your final answer on the line.
Split each mixed-number measurement into two pieces: whole units and a fraction of a unit.
Change each piece, then put them back together. Write fractions in simplest form.

## 1 Mixed numbers of a foot

1 foot = 12 inches.

(a) $1\frac{1}{2}$ ft = _____ in

(b) $2\frac{1}{4}$ ft = _____ in

(c) $3\frac{2}{3}$ ft = _____ in

WHOLE FEET + FRACTION OF A FOOT

**(a)** _____ **(b)** _____ **(c)** _____

## 2 Mixed numbers of a pound

1 pound = 16 ounces.

(a) $1\frac{1}{4}$ lb = _____ oz

(b) $2\frac{1}{2}$ lb = _____ oz

(c) $3\frac{3}{8}$ lb = _____ oz

WHOLE POUNDS + FRACTION OF A POUND

**(a)** _____ **(b)** _____ **(c)** _____

## 3 Mixed numbers of an hour

1 hour = 60 minutes.

(a) $1\frac{1}{2}$ h = _____ min

(b) $2\frac{1}{3}$ h = _____ min

(c) $1\frac{5}{6}$ h = _____ min

WHOLE HOURS + FRACTION OF AN HOUR

**(a)** _____ **(b)** _____ **(c)** _____

## 4 Go the other way — write a mixed number

Write each measurement as a mixed number of the bigger unit, in simplest form.

(a) 30 inches = _____ feet

(b) 36 ounces = _____ pounds

(c) 80 minutes = _____ hours

COUNT WHOLE UNITS; LEFTOVER OVER THE FACTOR; SIMPLIFY

**(a)** ____ $\frac{\quad}{\quad}$ ft **(b)** ____ $\frac{\quad}{\quad}$ lb **(c)** ____ $\frac{\quad}{\quad}$ h

## 5 Two-unit form and mixed numbers

(a) 3 ft 4 in = _____ ft (simplest form)

(b) 1 lb 10 oz = _____ lb (simplest form)

(c) 2 $\frac{3}{4}$ h = ___ h _____ min

KEEP THE WHOLE UNITS; CHANGE THE OTHER PIECE

**(a)** ____ $\frac{\quad}{\quad}$ ft **(b)** ____ $\frac{\quad}{\quad}$ lb **(c)** _____ h _____ min

## 6 Word problem — Wren’s apples

At the farmers’ market, Wren buys two bags of apples. One bag weighs $1\frac{3}{4}$ lb.

The other bag weighs 2 lb 6 oz.

(a) How much do the two bags weigh together? Write the answer in pounds and ounces.

(b) Write the total as a mixed number of pounds in simplest form.

CHANGE TO LB AND OZ; ADD; REGROUP; THEN SIMPLIFY

**(a)** _____ lb _____ oz  **(b)** ____ $\frac{\quad}{\quad}$ lb
