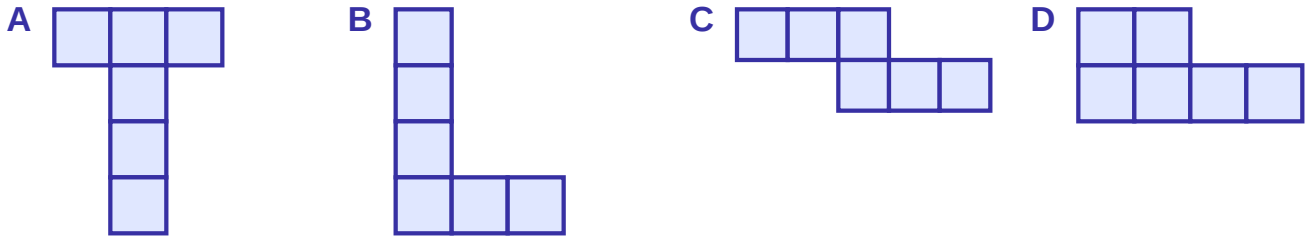
Name: _____ **Date:** _____

DIRECTIONS

This Independent Practice is for Lesson 4.17.02.
A net is a flat shape that folds up into a solid.
Picture each square folding up. Do any two squares try to land in the same spot?
You may copy a net onto grid paper, cut it out and fold it to check.

1 Will it fold into a cube?

Circle the letter of every net that folds into a closed cube.

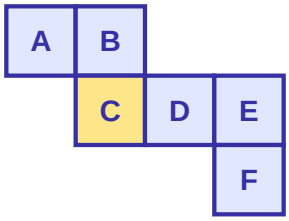


Nets that make a cube: _____

2 Opposite faces

This net folds into a cube. Opposite faces never touch in the net.

(a) Face C is the bottom. Which face is the top? (b) Which face is opposite face A?



Face C is shaded.

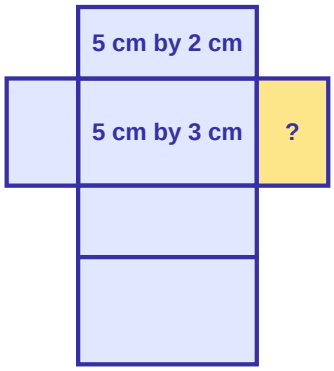
(a) _____ **(b)** _____

3 A net for a toy box

This is a net for a box that is 5 cm long, 3 cm wide and 2 cm tall.

(a) How many rectangles are in the net? (b) How many of them are 5 cm by 3 cm?

(c) The shaded rectangle is one side of the box. How long and wide is it?



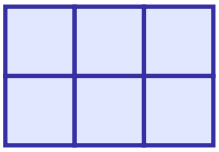
(a) _____ **(b)** _____ **(c)** _____ cm by _____ cm

4 Find the mistake

Mia says this net folds into a cube because it has 6 squares.

Explain her mistake. What happens when you fold it?

MIA'S NET



Explain: _____ _____

5 Draw your own

Draw a cube net that is NOT the cross shape. Shade two faces that will be opposite each other.
